

EToN 6 for Utility Companies 2014

EToN 6 ! Are you asking yourself.....

- Where do we start with this?
- How can we get the most efficiencies and value out of the new EToN 6 functionality?
- Which parts must we use?
- What is the process impact upon Permits and Notices?
- What is the people/resource impact?
- What is the system impact (EToN and peripheral systems)?
- When will Councils go live ?
- Will all councils use every part of EToN 6?
- Which parts should we go live with straight away?
- What communications do we need to make with Councils and when ?

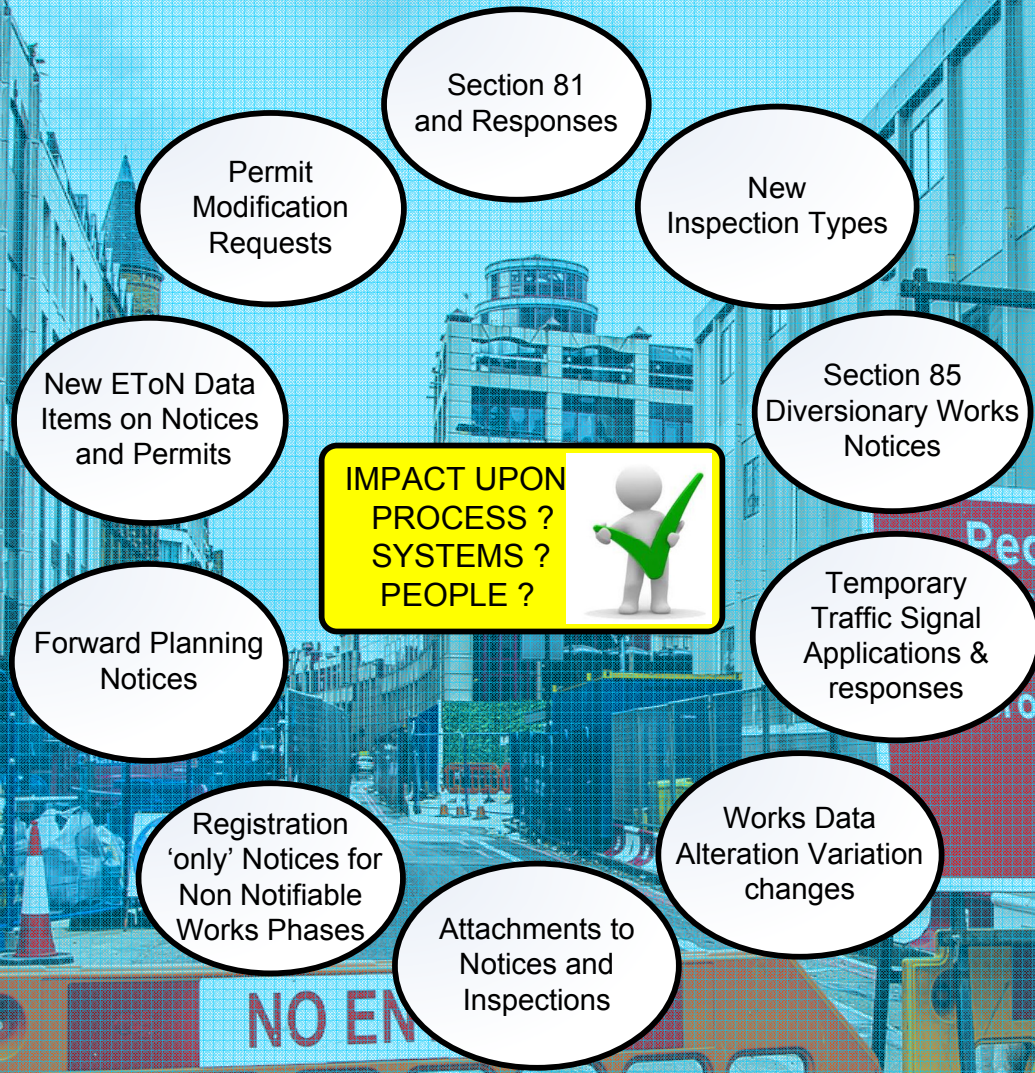

See overleaf for our 3 Steps to EToN 6 guide

3 steps to EToN 6

STEP 1 – ANALYSE EToN 6

STEP 2 – PREPARE FOR EToN 6

DEVELOP AND TEST PROCESSES
